

Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Bf-12C Rpn Calculator

App URL:

<https://play.google.com/store/apps/details?id=com.bradflaughter.bf12c>

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to obtain comprehensive and detailed feedback on the bf-12c RPN Calculator app. Additionally, we reached out to some of our target users, including finance professionals and students, to gather real-world insights from the intended audience.

2) How easy was it to recruit testers for your app?

Answer: Easy

(You can select your own answer).

3) Describe the engagement you received from testers during your closed test

Testers actively engaged with the app, providing constructive feedback on features, usability, and overall functionality. Their insights were invaluable in

identifying areas for improvement, which led to enhancements that significantly improved the user experience and satisfaction.

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Testers highlighted the need for better ASO optimization, improved Play Store screenshots, and the addition of "Rate Your App" and "Share App" options in settings. Feedback was collected through surveys and direct communication, ensuring a thorough understanding of user needs.

5) Who is the intended audience for your app?

The bf-12c RPN Calculator is designed for finance professionals, students, and anyone needing a powerful financial calculator. It caters to users looking for a reliable, feature-rich tool to perform complex financial calculations effortlessly and efficiently.

6) Describe how your app provides value to the users.

The bf-12c RPN Calculator offers advanced financial calculations, including cash flow analysis, depreciation, and statistical functions. With a

user-friendly interface and no ads or tracking, it ensures a seamless experience for users who require precision and reliability in their calculations.

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k

(You can select your own answer).

8) What changes did you make to your app based on what you learned during your closed test?

Based on user feedback, we optimized the app description for ASO, improved Play Store screenshots to showcase features, and added "Rate Your App" and "Share App" options in settings. These changes enhance visibility, user engagement, and overall app credibility.

9) How did you decide that your app is ready for production?

After conducting rigorous testing and incorporating vital feedback from diverse users, we ensured the bf-12c RPN Calculator is stable, user-friendly, and fully optimized. Our enhancements and adjustments position the app for successful deployment on Google Play.

10) What did you do differently this time?

This time, we prioritized user feedback on app features and marketing strategies, focusing on ASO and visual appeal. We also implemented user-requested features like sharing and rating options, resulting in a more polished and engaging app experience ready for production.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

**Best regards,
Testers Community Team**
